## NATURAL HISTORY

By Sea Kayaking Since 1983

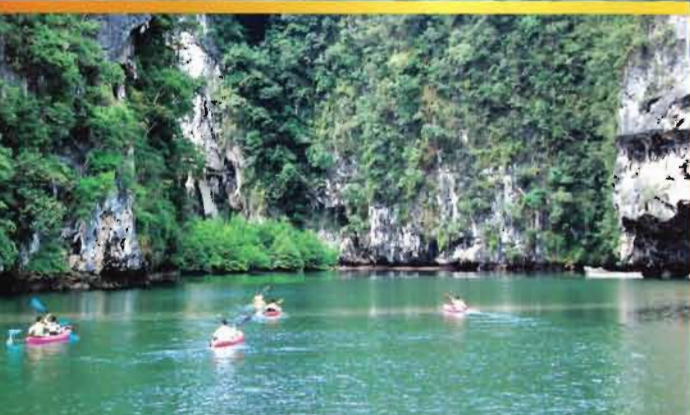

### EXPERIENCED GUIDES MAKE THE DIFFERENCE

In true Ecotourism, guides make the trip. Our professional multi-lingual guides have many years of experience and training in Sea Kayaking & Caving, Natural History, First Aid/CPR, "Best Friends" Service, Swimming and Lifeguarding. "We Put You in Your Own Documentary"

### ONLY THE BEST EQUIPMENT

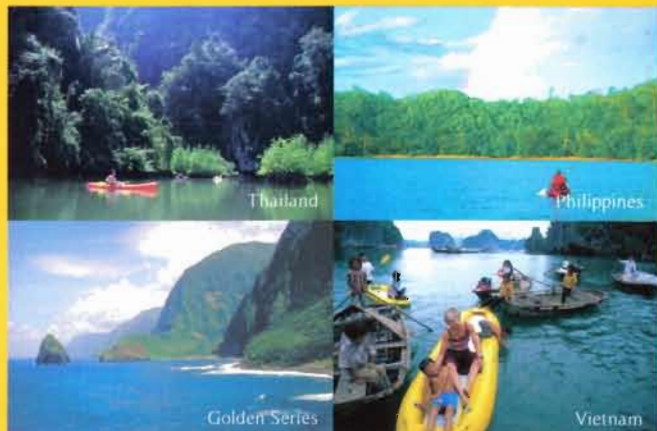

Made by SOTAR, the original and still the best inflatable rafts and kayaks, our Caveman-designed SOTAR Elite inflatable caving kayaks are made specifically for Phang Nga Bay. Lexitron fabric makes them 15 times stronger and safer than any other "canoe" in the Bay.

We also use original Legacy Paddle sports Sit-On-Top user friendly designs that skyrocketed the popularity of Tropical Sea Kayaking. Ocean savvy Hawai'i hosts over 50,000 privately-owned Ocean Kayaks.

## OVERNIGHTERS

John "Caveman" Gray loves sharing Kayaking and Nature so much he goes on both day and overnight trips whenever he can.

### THAILAND

Experienced sea kayakers say South Thailand is as good as Alaska, only Tropical!! Let us show you our natural wonderland!

### PHILIPPINES

Puerto Princesa is an environmental wonderland - two World Heritage sites, great nature, and kayaking, nonstop environmental festivals, crime free - no guns, drugs or rubbish.

### VIETNAM

National Geographic selected Caveman's Halong Bay trip as a World Top 25 Adventure! Caveman leads private charters in in May and October.

### GOLDEN SERIES

Now 62, Caveman runs exploratory expeditions to exotic locations such as Reunion, Niue. Caveman's "Local Boy" Hawai'i trip is every August. Check website for schedule.

### "We Put You In Your Own Documentary"

John Gray's SeaCanoe is South Thailand's only sea caving operator with Professional Standards. All JGSC guides are trained by John to the highest Western standards, and itineraries are John's own creation. A true "Man of the Sea" John was SCUBA certified (1957), Senior Lifeguard (1960), Honolulu Ocean Lifesaver (high surf rescue) 1977 and ACA Sea Kayaking instructor (Hawai'i 1988). John felt the earthquake, predicted the Tsunami, and is credited by staff and guests for saving their lives with his instructions.
